Baby Kulwa's Story...

Baby Kulwa was born into a sad situation. His father left and his mother was too sick to produce breastmilk. Kulwa's health was deteriorating fast. But our donors saved his life by providing formula milk! His mother is now healthy and Baby Kulwa will suffer no long term consequences from malnourishment.

Brief History

DonorSee was founded by Gret Glycer, who graduated from Grove City College in 2012 with a degree in Entrepreneurship. Gret spent the year following graduation working for Enterprise Rent-a-Car. He put in long weeks and quickly worked his way up to a management position. Although he was having success, he was not fulfilled and started searching for other opportunities. In 2013, an opportunity came to move to, Malawi, a small country in Africa to work as a missionary. He spent most of the next three years working and serving in this country, including starting an organization, called HOWMs, that builds houses for orphans and widows. He also fundraised \$100,000 for an all-girls school in a rural village. It was during his time in Africa that the idea for DonorSee was born.
