

# E+I Work Studies

E+I Work Study tracks are an exciting way for students to gain résumé-building experience while learning hands-on skills.

## About

The Center for Entrepreneurship + Innovation has partnered with outside organizations to create unique work study tracks that provide students of all majors opportunities for real-world service learning experience while being paid. E+I Work Study tracks are an exciting way for students to gain résumé-building experience while learning hands-on skills. While the work study program pays at the same rate as any other student work program on campus, the experience is invaluable.

## Engagement + Support Opportunities:

- ➔ Work with E+I to create a funded E+I Work Study program to benefit your organization.
- 📁 Make a financial contribution to support the general Work Studies program.

“

It was clear from the start that the students in the Work Study had the skills, knowledge, and work ethic needed to succeed in a startup environment. I was impressed. We even hired one of the students from the study upon their graduation!
