

Catalyzing + Equipping Innovative Thinkers + Entrepreneurs who serve the Common Good

The Center for Entrepreneurship + Innovation (E+I) is a nationally recognized program that serves as a unique experiential component of student education at Grove City College. E+I brings the concepts students are learning in the classroom to life, while fueling the entrepreneurial spirit of the campus and local community.

Students of all majors participate in **programs**, **events**, **international experiences**, and **competitions** that give them valuable real-world experience while integrating what truly matters—values, judgment, and a Christian perspective.

E+I presents entrepreneurship as a mindset and equips students with a set of practical skills and hands-on experiences that prepare them to succeed, regardless of their career path. Programs contribute to local and regional economic development by bringing students and the community together to solve problems cooperatively through service learning projects, volunteerism, and targeted events.

For students interested in starting a business, E+I offers programming geared toward supporting student ventures and shares the mission of the Department of Entrepreneurship to educate and inspire principled, high-impact entrepreneurs whose innovations improve people's lives and solve important problems.

Redemptive Entrepreneurship

**“The work of joining
God in creative resto-
ration through sacri-
fice, in venture building
and innovation.”**

- Praxis (an E+I Partner)
